# LIGHT ON STRIKE OF COAL MINERS

Scale for Workers in Wyoming Collieries Agreed Upon and Then Repudiated.

PRESIDENT GIBSON MADE A PERSONAL AGREEMENT

Wages Paid Present Year Assented to and Then Set Aside by Mine Workers.

F. P. Gridley, assistant general manager of the Central Coal & Coke company of this city, whose mines are in Wyoming, and which are closed down owing to the strike of the mine workers, was in Salt Lake Wednesday. He had attended the meeting of the operators and the mine workers at Butte. Talking of the strike, Mr. Gridley

"On Friday last the representatives of the Wyoming operators and of the mine workers in Butte appointed a subcommittee to adjust differences. Upon the part of the mine owners John J. Hart was chosen and upon the part of the mine workers President Thomas Gibson. When this was done Mr. Hart stated that he would not enter into the stated that he would not enter into the conference unless Mr. Gibson was au-thorized to deal directly, and that the conclusions reached should be binding. ence the scale submitted was agreed to It provided for the period September 1 1908, to September 1, 1909. It follows

Changes From Last Year.

"This scale is exactly the same as paid last year, except that drivers in-side are reduced fifteen cents per day and engineers inside are increased ten-cents per day. On outside men, team-sters are reduced fifty cents and tip-plemen fifteen cents per day. This scale was accepted by the two representatives in personal agreement

"On Saturday this agreement was repudiated by other representatives of repudiated by other representatives the mine workers, they alleging that Mr. Gibson was only willing to accept in a referendum, and this the miners would not accede to. The result is known. The following telegraphic communication was had between John J. Hart, representing the Wyoming operators at Butte, and Mr. Thomas L. Lewis, president of the United Mine Workers of America, at Indiagraphic Indiagraphics. of America, at Indianapolis, Ind.: Hart to Lewis, August 29.

Hart to Lewis, August 29.

Pursuant to your suggestion, the mine obstators and a committee representing the Wyoming miners met in Butte yesterday, and at a joint meeting referred the question of day labor scale to a subcommittee for settlement. The committee consisted of Thomas Gibson and myself. Mr. Gibson and I came to an agreement yesterday evening, but at a joint meeting this morning the other representatives of the miners on their committee refused to indorse our mutual understanding.

I desire to say on the part of the Wyoming operators and upon my own account that I thoroughly resent such procedure, and I personally regret this, the first case of seeming bad faith that was come to my notice from the standpoint of your organization. Under the circumstances, we feel that we could enter this to agreement if such agreement and to broken over night and to recould be broken over night and to recould the could be broken over night and to recould the processor of the series and the could be broken over night and to recould the could be broken over night and to recould the processor.

circumstances, we seel that we could enter this he agreement if such agreement round he broken over night, and i presume that it means unnecessary and useless ideness upon the part of the United Mine Workers of Wyoming.

No one regrets more than I the loss of earnings, especially when you take tito consideration the fact that the operators proposed only such small changes as would effect only less than 10 per cent of your numbers.

Lewis to Hart, August 31.

Replying to your telegram of the 29th, I regret very much that you falled to spree. It seems to me that the miners' representatives ought to have accepted to advice of President Gibson. Awaiting fatalls. Agreement, made with our organization cannot be broken, as you suggest. I believe you must have wrong conception of the situation.

Hart to Lewis, August 31.

in order to make the question clear, t mequivocally assert that I made a contract in good faith with Mr. Gibson, and as soon as, we have the minutes of our joint meeting printed and in shape for distribution, you will be able to obtain enough details to enable you to detain the question. termine the question

# CITY ENGINEER VISITS LAKES AT BRIGHTON

Six Reservoirs Capable of Storing 425,000,000 Gallons of Water; Fed by Springs.

City Engineer L. C. Kelsey returned from a trip of investigation of the city's lakes at Brighton Thursday merning, and says that in the neighborhood of 425,000,000 gallons of water can be stored in the six reservoirs at the head of Big Cottonwood. They are fed by perpetual springs in the mountains and never become dry, and although all other water sources might fail, they would supply the city with water for a month at the least, he says.

supply the city with water for a month at the least, he says.

Surveys now being made of these lakes will be completed in a few days, and when this is done Mr. Kelsey will be able to make an estimate of the cost of converting them into reservoirs. It is the intention to dam the outlets, cleau them out and convert them into immense torage houses of water.
It will not be long until there will not

be enough water to supply the demand. Mr. Kelsey thinks. The capacity of the water system now is about 30,000,000 gallons daily. The consumption ap-proaches 20,000,000. This is increasing on account of the growth of the city. and Mr. Kelsey is in favor of making arrangements for a water shortage ahead of time by converting the six lakes owned by the city at Brighton into reservoirs. The lakes cover almost sixty acres of ground.

### NOTICE OF SPECIAL TAX.

### Circulation Guarantee

This Certifies that the virculation of the Salt Lake Tribune

that the circulation records are kept with our and the circulation stated with su in control July 20, 1908.

### WHICH IS TO SAY

That a disinterested party, a cir-culation expert, a man who has spent a lifetime on the circulations of the big dailles of this country, has care-fully examined the circulation books and methods of The Tribune, and recommends them as honest, relia-ble and true, to all of which he has appended his signature.

The Tribune is daily adding many more new subscribers than all the other papers, except the Telegram, combined. The people of this community seem to appreciate a real live newspaper with a definite policy. Not vacillating, weak and noncommittal, but consistent, vig-orous and frank every day in the year.

The best advertising medium be tween the Colorado plains and Pa-cific tidewater is growing bigget and better every day.

The Tribune, in Salt Lake, is the premier newspaper: has by far the largest and best circulation, is so acknowledged and so accredited by every unprejudiced person.
